Plantation Island Resort announces the opening of Tavola Restaurant & Bar

Plantation Island Resort is proud to announce that it will be opening a stunning new restaurant called Tavola Restaurant on 1 September 2019.

Tavola Restaurant will be an all-day dining a la carte restaurant serving flavours of the Pacific, set on one of the best locations in the Mamanuca Islands. The Restaurant's architecture reflects a tall, traditional, Fijian thatched bure with open spaces and spectacular ocean views over Malolo Lailai Bay.

Tavola Restaurant will seat up to 120 guests and will be open from 7:30am until 9pm each day. The Restaurant is part of a brand-new precinct at Plantation Island Resort which also includes an Arrivals Bure, Pool, Bar & 40 new Ocean View Hotel Rooms.

“The tavola tree is iconic at the Plantation Island Resort for so many years it has provided the back drop for weddings, anniversaries, new love, friendship, change of tides and even a little romance” states Plantation Island Resort General Manager, Alex Wilson. “There were no second guessing what to name the new Restaurant which faces a sun-setting horizon, nestled in a beautiful lagoon and part of our new arrivals precinct. Our board of directors and employees are very proud as much as excited about the new Tavola Restaurant”

Tavola Restaurant will blend seamlessly into Plantation Island Resort's meal plan offering. Guests who have pre-purchased a Breakfast package, Half Board package or Full Board Package will be able to utilize 1 course off the a la carte menu at Tavola Restaurant as part of their meal plan. This inclusion will further simplify the meal plan offering and provide greater value for those guests that choose to purchase their meals before they arrive.

Plantation Island Resort is nestled in the heart of Fiji's beautiful Mamanuca Islands. Spread over 123 acres of coconut palm-studded tropical gardens, Plantation Island Resort sits on the very shoulders of an azure-shaded lagoon and seven-kilometres of sun-kissed white sand.
